

**Sealed Air Corporation**

**DECLARATION OF CONFORMITY  
WITH  
Commission Directive 94/62/EC and the Essential  
requirements, art. 11 and the Directive on Hazardous  
Preparations, 67/548/EC and its amendments,  
Directive 76/769/CE, 2002/95/CE and 1005/2009/CE, on  
restrictions on the marketing and use of certain dangerous  
substances and preparations.**

Dear Customer,

We hereby declare that the following Sealed Air packaging products, Cell Aire, Cellu Cushion, Stratocell, Ethafoam, AirCap, Bulpak and films in general, are in compliance with the European Directives as mentioned above.

The actual concentration of heavy metals in our products does not exceed 5 mg/kg.  
The heavy metals referred to are: Lead, Cadmium, Mercury and Chromium (VI).

Further, we declare that, in compliance with EU Directives 76/769/EC, 2003/11/EC and 1005/2009/EC (restrictions on the marketing and use of certain dangerous substances and preparations), any of the following substances are not present and not intentionally added;

- Polychlorinated biphenyls,
- Polychlorinated naphthalenes
- Chlorinated paraffins
- Chlorinated organic insecticides
- Poly brominated biphenyls
- Polybrominated diphenylethers
- Organic tin compounds
- Asbestos
- Azo compounds
- Formaldehyde
- Cfc, Hcfc's
- Halons

After use, all of the mentioned products are considered as normal waste and can easily be collected and recycled into energy in a controlled incinerator. During this process no toxic fumes will be emitted.
